**SECTION 6. ACCIDENTAL RELEASE MEASURES**

Personal Precautions: Avoid dust formation. Remove all sources of ignition. Ensure adequate ventilation.
Use personal protective equipment. See also Section 8.
Methods for Cleaning Up: Clean up promptly by vacuum. Use of a vacuum with high efficiency particulate air (HEPA) filtration is recommended. Do not create a dust cloud by using a brush or compressed air. Pick up and transfer to properly labelled containers. See Section 13.
Environmental Precautions: Do not allow material to contaminate groundwater system. Local authorities should be advised if significant spillages cannot be contained. See also Section 13.

SECTION 7. HANDLING AND STORAGE

Handling: Avoid contact with skin and eyes. Do not breathe dust. Provide appropriate exhaust ventilation at machinery and at places where dust can be generated. Do not create a dust cloud by using a brush or compressed air. Take precautionary measures against static discharge. All metal parts of the mixing and processing equipment must be earthed/grounded. Ensure all equipment is electrically earthed/grounded before beginning transfer operations. Fine dust is capable of penetrating electrical equipment and may cause electrical shorts.
